SPECIALTY STRIP & OSCILLATING, INC. ANNOUNCES THEIR PARTICIPATION AT FABTECH 2013

Masury, Ohio – October 16, 2013 – Specialty Strip & Oscillating, Inc., 1262 Standard Avenue, announces they are attending and exhibiting at this year’s FabTech Expo. FabTech is North America’s largest metal forming, fabricating, welding and finishing event. This year’s FabTech Expo is being held at McCormick Place in Chicago, Illinois November 18-21, 2013. Specialty Strip & Oscillating, Inc.’s booth number S4979.

Specialty Strip & Oscillating, Inc. is a supplier of conventional slit and oscillate coils in cold-rolled low carbon, high carbon, alloy and stainless steel. They provide coils with 20 to 25 miles of continuous strip with capabilities to process up to 2-1/2" in width and a coil weight of 5,000 lbs., with face sizes from 4” to 14” and gauges from .009” to .125” in thickness.

Further capabilities include welds annealed and ground, slit and duburred, as well as straight patterned coil walls coiled on steel liners, fiber cores and spools. Finishes are achieved through Galvalume, hot dip galvanizing, electro-galvanizing, galvannealing and prepainting in cold-rolled strip and sheet. Customers can run a coil uninterrupted for 10 to 15 times longer than with conventional ribbon-wound coils. This eliminates downtime, coil end scrap loss, coil telescoping and tangling – increasing savings, efficiency and productivity.

Specialty Strip & Oscillating, Inc. is under the direction of Thomas von Philp, President and Adam von Philp, Vice President.

To place an order for an oscillated coil, please call Tom von Philp or Adam von Philp at 866-658-5282, email them at generalinfo@specialtystrip.com and visit www.specialtystrip.com for more information.
